MOELLER DELIVERS UNSURPASSED MANUFACTURING ORGANIZATION, TRANSPARENCY AND EFFICIENCY

With over 50 years of manufacturing expertise, Moeller Precision Tool has developed a revolutionary inventory management software (IMS) system that is designed to maximize crib efficiency. The MPTCrib.com inventory management program is the answer to automated tooling parts/components management. Our exclusive IMS system provides you with complete and convenient control of parts and component inventory.

MPTCrib.com is engineered to audit and adapt to most manufacturing areas including existing storage methods and systems. Our barcode parts scanning system catalogs components, provides inventory control, automatically uploads data and warns before stock levels become critical.

BENEFITS AND FEATURES

- Portable and adaptable to most manufacturing areas/cells
- Compatible with existing storage methods and systems
- Barcode scanning / increased sign-out compliance
- Automated uploading and reporting
- Single or multi-step online ordering
- Traceability and accountability tools
- Receiving procedures for higher accuracy
- Digital print/revision archiving
- Overview access for administrators
- Multi-facility capable
- Available in multiple languages and international territories
PROGRAM OVERVIEW

ADVANCED CRIB ORGANIZATION
(applicable to large scale machining/manufacturing cell areas)

- Complimentary site evaluation
- Program proposal and scope of work
- Full-scale audit of inventory
- Sort, organize and assign barcodes
- Evaluate and offer a Refurbishment Tooling Program
- Integrate into powerful parts and tool management software
- On-site system training
- Follow-up audits and inventories
- Continued support
  - New die additions to inventory
  - Continued recommendations for inventory efficiency improvements

CUSTOMER TESTIMONIAL

“The MPTCrib.com system created accurate physical inventories, eliminated overstock, out-of-stock and is-it-stocked problems. The system streamlines our costs averages by at least 35% and provides our tool room department the support needed to keep production machinery and facilities support equipment running. The MPTCrib.com system shows our potential customers we are organized and are utilizing the innovative, cost streamline ideals available out there today.”

— Katrina Larmon, Plant Operations Crib Leader, BAE Industries
