

THE INDUSTRY'S ONLY TRUE
ONE-PIECE CONSTRUCTED RETAINER

ADAPTABLE TO ALL MOELLER TRUE-SET® AND CONVENTIONAL
BACKING PLATE STYLE HEAVY-DUTY MULTI-HOLE RETAINERS

True-Fit™ was created for use in new die/retainer construction, refurbishment of existing multi-hole retainers, and engineering change implementation. True-Fit™ is the most economical, one-piece constructed, insertable retainer; designed to significantly reduce installation costs over any other product design.

FEATURES & BENEFITS INCLUDE:

- Contains all of the features present in our innovative True-Set® ball-lock retainers
- Available for heavy-duty True-Set® and backing plate style retainers and all standard inch and metric shank diameters
- Made from shock resistant tool steel and through hardened
- All critical features, including the punch hole, are self-contained and precisely finished post heat treat
- Simple design promotes minimal effort for installation
- CAD data available for installation machining purposes. Please refer to our standard product catalog or online at www.MoellerPrecisionTool.com
- The most precise solution available for quick repairs, engineering changes, or producing industry compatible multi-hole heavy-duty ball-lock retainers in-house

THE INDUSTRY INNOVATOR OF BALL-LOCK PRODUCTS FOR OVER 60 YEARS
